INTRODUCTION

Dr. FARUK G. PATEL

Dr. Faruk G. Patel, Founder Chairman and MD of KP Group, is a visionary entrepreneur, dynamic leader, philanthropist and the driving force behind KP Group, one of India's leading players in the renewable energy sector. With over three decades of business acumen and an unwavering commitment to sustainability, he has transformed KP Group into a powerhouse of Green energy and Green engineering solutions, contributing significantly to India's renewable energy transition.

Under his leadership, KP Group has pioneered innovative solar, wind & hybrid energy projects to the tune of **5.9+GW portfolio**, reinforcing its position as a key player in the industry. Dr. Faruk Patel's strategic vision has enabled the group to develop and execute large-scale infrastructure projects that align with India's ambitious Net Zero targets. His relentless focus on innovation, quality, and sustainability has led KP Group to remarkable milestones, including successful **public listings of group companies (KPI Green Energy, KP Energy & KP Green Engineering)** and numerous industry accolades. His business acumen has today scaled KP Group from mere 1 Lakh rupee investment to **165+ Billion business empire** (228+ billion - all time high). Today his company KPI Green Energy owns and operates **Gujarat's Largest Private Solar Park** based in Bharuch district. While KP Energy is **Gujarat's #1 Wind Solutions Provider**, KP Green Engineering too is soon going to have **Asia's Largest Galvanizing plant** at Matar, Bharuch.

Continue..

Coming from a very humble family, has made Dr. Faruk Patel a firm believer in giving back to society and corporate social responsibility, actively leading various philanthropic initiatives in education, healthcare, and community development. The business he choose, of renewable energy, is also aligned with his belief to benefit humanity at large. His leadership extends beyond KP Group, as he is recognized for his thought leadership and advocacy for green energy solutions at national and international forums. **World's First Old Age Home for Differently abled** is being developed by KP Group under his leadership. For his exemplary work in the field of philanthropy he has been awarded the renowned **Mahatma Award, Rotary Lamhe Award** and **Company of the Year: CSR Commitment**.

Dr. Faruk has a special inclination towards education, and the CSR arm of KP Group, known as KP Human Development Foundation, is associated with 36+ educational institutions and have adopted 8 institutes (5 Government schools, 2 Private schools and 1 college for differently abled). To date he has delivered lectures in **IIM Ahmedabad** and **IIT Bombay**, while he is also a nominated faculty at IIM Ahmedabad.

His passion for innovation and management has earned him **honorary doctorate** from **American East Coast University, USA**. To his accolades **the idea of one tower multiple network**; an idea which **changed the entire telecom industry** and **first to install wind turbines in South Gujarat** region after three years of research; are few. He has already been awarded as **The Legend of Surat**, the **Leader Award** and many more. He has already made a place amongst wealthiest Indians as per **Hurun India's Rich List**. Under his leadership, **KP Group** has also been awarded **The Best Brand, The Most Promising Brand** and is selected as a **"Great Place To Work"**.

With sharp business intellect and a passion for clean energy, Dr. Faruk G. Patel continues to drive KP Group's mission of powering a sustainable future, making a lasting impact on industry and society at large.

Hurun India's List: Surat's Solar King Dr. Faruk Patel Makes a Big Leap, Ranks Second Among the Richest in Surat

Surat: Hurun India has released its list of the top ten richest people in India, and it also includes the top ten businessmen from Surat. One name that stands out is Dr. Faruk Patel, known as the "Solar King" of the KP Group. In 1994, the son of a bus conductor started his business journey with a capital of just Rs 1 lakh under the name KP Group. Through relentless effort, innovation, and strong management, Dr. Patel has made KP Group one of the top five businesses in Surat. With a net worth of Rs.9,700 crores, Dr. Faruk Patel has now become the second richest businessman in Surat. Surat is home to 28 billionaires. Leading the pack among the top ten is Ashwin Desai of Aether Industries with a net worth of Rs 10,700 crores. Dr. Faruk Patel, with his companies KPI Green Energy, KP Energy, and KP

Early life and education

Dr. Patel was born on 24 March 1972 in Saladara Village in Bharuch to Gulam Patel and Rashidaben. He grew up in a lower-middle-class family where his father worked as a bus conductor for DSRTC. Earlier the family lived in Talala Kothli village of Bharuch, but in 1974 they shifted to Surat where Dr. Patel was two years old and they rented a one-room house in Adajan.^[5]

Dr. Patel initially studied at Surat Municipal Corporation school in Kantawad Bhandari Mohalla, where he was highly acclaimed by his teacher Shantaben, who advocated him to be shifted to VD Desai Vaidikala School (Bhuka Bhavan), where he completed the rest of his schooling. In order to help his family financially, Dr. Patel moved to Mumbai and began learning about import-exports along with working as an optician to earn extra money. Dr. Patel after returning from Mumbai joined Hatz Brothers to gain more experience in the textile industry and pursued a diploma in Textile Engineering at MANTRA - Mamade Textile Research Association.^[6]

Career

In 1993 Dr. Patel started a carling business and supplied materials to companies right from Hazira to Bharuch which he ran for about eight months saving money to start the KP Group.^[7] Dr. Patel established KP Group over two decades back, investing a saved capital of 1 lakh rupees. KP is derived from his native village Kothli and his surname Patel. With utmost determination and hard work, he turned his entrepreneurial venture to become a multi-crore rupee umbrella firm having two listed entities - solar power developer KPI Green Energy and wind energy projects developer KP Energy Ltd.^[8]

He realized the future of communication and the requirement of towers, henceforth he expanded his business to 16 states of India. After 13 years in business, the visionary felt a need for diversification and ended up foraying into the renewable energy sector. His first venture was solar power, wherein in 2008 he established KPI Green Energy, and then another in wind power with KP Energy in 2010.^[9]

Initially, he acquired 220 acres of land in Sudli, Bharuch for the development of Solar Park, which he has expanded to over 2000+ acres and currently equips 101+ MW Gujarat's largest private solar park. This arm of the KP Group has also been listed and actively traded on NSE and BSE. As of 2024, KP Energy has a portfolio of **886+MW** of EPC business, ~2 GW projects in pipeline, and listing in BSE as well as NSE.^[10]

Under the parent business KP Buildcon Pvt. Ltd., which is now known as KP Green Engineering Pvt. Ltd., Dr. Patel began his company's operations in the construction area before progressively expanding into mobile phone tower installation. After completing hundreds of projects in 16 states throughout India over 13 years, Dr. Patel decided to diversify and launched KPI Green Energy Ltd. (formerly known as KPI Global Infrastructure Ltd) (KPIGEL), a solar power company, in 2008, followed by KP Energy Ltd (KPE), a wind energy company, in 2010. Both businesses are initially focused on Gujarat and now moving to other states of India, with huge a track record of success. Under his leadership, KP Buildcon today has become a 1,06,500 Metric Tonnes company.

KPIGEL currently owns more than 507+ MW of solar power projects in the Bharuch villages of Sudli, Bhimpura, Tanchna and other locations, and is building another 2,411+GW of projects that are either under construction or in the planning phases. Dr. Patel has set a lofty goal of creating 1,000 megawatts of solar electricity by 2025.^[11] Recently, the company has won 405MW tender of Coal India Ltd.

KP Energy, on the other hand, provides end-to-end turnkey solutions for wind power projects. Currently, the corporation is in charge of 30MW of wind power generation under IPP. The
